#### Drive To Push Japs From Rich Indies

NEW YORK-Soundphoto-From two sides the Allies close in on Singapore and the final stages of the campaign to drive the Japs from the rich Indies gets well underway with the invasion of Borneo (1). At Rangoon (2) a new British army has been formed to drive down the Malay Peninsula and Singapore (3) at the tip. As map shows, the Aussies invasion is aimed at moving from Brunei, already taken, toward Kuching and the new airfields on Borneo can soon be turned against the Indo-China coast.

#### MAINE IN WASHINGTON

(From the Office of Owen Brew-ster, U S S)

The past week has been meat, fish and potato week in the nations Capital. All three of these items are of vital importance to Maine and New England and all three of these items are receiving the active attention of the Maine Delegation and members of Congress from other sections of the country.

Additional Meat for Summer

Resort Areas

Members of the Maine Delegation for the past ten days have been flooded with telegrams asking rethe OPO fixing a new base period for allocations of meat. The base period to allocations of meat and January, Fabruary and March in the year 1914 upon which to base allocations for the summer weather and the summer weather weather the summer weather weather weather the summer weather for the summer months and the bulance of the year, OPA claims that the winter months taken represent the last period of normal supply of which they have record. Un-fortunately, allocations over this hase period not only make it im-possible for summer hotels and summer camps to obtain any meat but it also prevents returning sons and daughters from sharing meat allocations while home on business or vacation. The Maine Delegation and other Senators and Representaand other Senators and Representatives were timable to get any satisfactory reply from the OPA which claimed that it had made its decision and will stand by it. Senator Waish of Massachtisetts and Senator Brewster of Maine together with Congressman Forand of Rhode Island. Mrs Smith of Maine and Mrs Woodhouse of Connecticut, joined in a call for a meeting of all Senators and Representaing of all Senators and Representatives in summer resort areas to meet at the Capitol for the purpose of discussing the situation with the

Ord discussing the situation with the Ord and pressing for action. Sixteen states were represented at the meeting which faid before the Ord the seriousness of the condition existing in the respective areas. Ord seemed unable to give satisfactory appropriate to the satisfactory appropriate to the condition of the satisfactory appropriate to the condition of the satisfactory appropriate to the condition of the satisfactory appropriate the conditions of the condit tive areas. OPA seemed unable to give satisfactory answer as to the exact causes of the situation and why it had taken action interpreted by the Senators and Congressmen present as unfair in a distribution which imposed large quotas unan violate pages and congressions unable violates areas. bution which imposed large quotas upon winter resort areas and abnormally low winter rations to northern summer resort areas. In A committee print of a proposed more facts and give more definite advices regarding definite relife, the

meeting was adjourned until the week following at which time a definite announcement will probab ly be made regarding one of the most critical situations ever to confront a Maine summer season. Both Maine Senators are upon this committee.

Fish to Have its Inning
When it became evident that the destroyer, U.S.S. Buck, launched conferees on the OPA Extension here. The parents of the girl within a greed to place agricultural products and livestock and the ceremony. Fish to Have Its Inning the final anthority of the new the request of Senator Brewster was made to have fish and fish is an amendment to the AAA bill and the second of Congressman Fellows was made to have fish and fish products, together with shell fish given the same advantages as will introduce the same bill in the stock. The conferees, however were more concerned to get the conference teport agreed upon and were also reluctant to enlarge the scope of the House and Kenafe considerations and, therefore, the movement failed.

considerations and, therefore, the movement failed.

"When this became known, senator Brewster introduced a lill amending the OPA Extension Act be declaring that for the purposes of the act as amended by the conferble of the act as amended by the conferble of this is of vital importance to considered as agricultural products, the fish industry which has been provides those interested and compared to the features of the bill one gives ample opportunity for the official consideration of those concerned so that the bill may be put in proper form and shape for introduction.

There are many advantages which will come to potatoes when they are made a basic commodity. The principal benefits will come in any year in which their gray he not be the first industry which has been any year in which there may be not because the first line of the principal benefits will come in any year in which there may be not believe the principal benefits will come in any year in which there may be not be principal benefits will come in any year in which there may be not believe the principal benefits will come in any year in which there may be not be not believe to the principal benefits will come in any year in which there may be not be not believe to the principal benefits will come in any year in which there are many advantages which will come to potatoes when they are made a basic commodity.

considered as agricultural products. The principal benefits will come in the fish industry which has been steadily depressed throughout the war as regard to price. This was true in the sardine fight which has just ended in a mild and partial victory for the sardine operators. OPA has made its decisions and stood by them and as a result, the fish industry has not been given a fish industry has not been given a

fair price by OPA as guaranteed by OPA legislation.

A companion bill has been introduced in the House by Congressman Fellows, Both those Bills will go before the Banking and Currency Committees and both Committees and both Committees and by committees are selected. cy Committees and both Commit-ices have promised prompt action. The fish industry throughout the country is manifesting a vigorous registration of interest in Washing-ton and this is particularly true with the Maine sardine industry the fishing centers of Portland and Particularly true Rockland in Maine and Boston and Gloucester in Massachusetts.

One of the most interesting facts one of the most interesting facts concerning the introduction of this till is that the amendment was introduced several hours before the conference report on the bill was received and voted upon.

#### Auto Tires Up 18% This Month

Maine's share in the nation's increased allotment of motor vehicle tires for July is an increase of slightly more than 18 percent above the quota for June, according to Thomas E Jordan, Associate Mileage Rationing Officer for Maine

There still will not be enough new passenger tires for allocation to "A" gas ration holders, Jordan said, and these will be distributed among "B" and "C" drivers on the same basis of essentiality as in the

past.

Maine's allotment of new passenger car tires for July is 10,369 representing an increase of 2.161 mall truck tires, 3242, increase 360; 3:25 or larger truck tires 969, in crease 192; small tractor, 296, decrease 67, large tractor 181, in-

line will permit registration by farmers who do not begin slaughtering until the fall, OPA said.

#### THE LOW DOWN FROM HICKORY GROVE

The way I figure, this new 5 buck windshield sticker, it is may-be a good idea. You know, it all taxes were puld via sticker, it might work nut skookum. Let every public project be paid for by sticker, Say as a sample, the Govt, thinks it must have OWI to pass out news or hold back some, that it thinks we are for young to understand, and it is going cost 35 million a year, we could have a 2 dollar OWI stamp for same—there being some thing like 18 million cars in the

And there are these River and Dam "Authorities," like the Missouri Valley one to cost around due million. A windshield sticker for this MVA would be a 22 dollar labor and with stamps for all prose laby. And with stamps for all pro-jects everybody would, see what they were all about, and what it was costin' them versus everybody thinking it was something for Un-cle Samuel to pay for and well de Samuel to pay for, and not

We could have in cent stickers for the local playeround and leap-frog projects and work on the to the 25 buck sticker for bigger things like AAA, etc. And when the wind-shield was plastered and world hold no more, we could relax and enew the worst was over - until row in next year.
Yours with the low down,
JO SERRA

This man is not the only big-company official in the country who has out a lordly income to less than 10 cents a month. Why do they do it? Because their big salaries benefit them so little and cost their firms so much. My young friend who started last fall to work his way through college, running a steam dishwasher four hours a day, realized more net from his salary than this \$50,000 executive. Who Is Injured?

Men who cut off big salaries have other income. That's why their tax rates are so high. That's why they can afford to spurn a salary. But if they must decline the proceeds of their own invested earnings, one thing is sure: They will not invest further earnings to start new ventures or expand old ones. Investments in business are not safe, never have been. Any investment is a

Men with money invest it only when they believe, to the best of their judgment, that it will pay reasonable returns. Now they are sure of only one thing: Nearly everything an investment earns will be taxed away from them. Will they invest in new enterprises? No. Then where will our returning service men find work? Unless present tax laws are changed soon, they will find it on a huge W. P. A. to the disgrace of our free America.

Pay-Cut

Last year at this time I enjoyed the acquaintance of a business man whose salary was \$50,000 a year. I looked upon him with a great deal of admiration and respect for several reasons. He earned what he has with hard work and know-how. His employees, numbering above ten thousand, call him Uncle Frank. He lives in a small town and helps a lot of people in a quiet way.

Last week somebody showed me a page of a pocket-size magazine published for the employees of his company and I read with grave interest that his pay had been cut. That was news by anybody's standard; most people are getting raises in pay these days. What's more this man's pay-cut is big. It amounts to more in a year than most men manage to accumulate in a whole lifetime.

His Own Words "I insisted that the board of directors reduce my annual salary from \$50,000 to one dollar," the signed statement said, "I have not been receiving net anywhere near \$50,000 a year for working. . . of my 1944 wages, . . . Why should I the glory which I had I permit the company to pay out fore the world was." \$50,000 a year to benefit me by only

Let me make haste to say that I am not sorry for Uncle Frank. He will be all right; he has some other money. I am not worried about his employees either. The faithful workers among them will be able to retire in dignified comfort. My only concern is over men who, next year or the next, may hunt jobs and not t find them; jobs Uncle Frank would

like to offer but can't. Inside Figures Here is another enlightening passage from his statement: "Perhaps you wonder why my net realization from wages has been so small. The answer lies in the extremely high income tax rates which apply to my wages, added as they are to my other income, and to the fact that I | Abraham lived over 1800 years bemust pay not only federal income

Patch, who died at the C M G Flospital Sunday, June 24, were held at the Universalian held at the Universalist Church Wednesday afternoon at 2 o'clock. He was 75 years of age, Survivors are his wife, the former Sarah E Resolved, that we the members Millett; a daughter, Mrs John Ber-of Pleasant Valley Grange, extend maski of West Orange, N. J.; a grandosn, John Jr; a half brother, Fryk McAlister of Norway; and er he is not dead, just gone up to nephes and nieces. Interment was Norway Pine Grove Cemeters. The bearers were Roy Dyment, Emil Heikkinen. Walter Inman and Wiltiam Emery.

Felt-Coffin

There was a very pretty welding Sunday morning, July 1, at the home of the officiating minister. Rev Eleanor B Forbes who united in marriage Miss Barbara Cof-fin and Richard Gordon Felt of Woodstock in a double ring cere-mony. Their attendants were the brides parents, Mr and Mrs Alpheous Coffin.

#### THE WAR FOR PEACE J E Jones

For the past two months all the skirmishes for peace have occupied the full attention of delegates of 50 United Nations. When President Truman rung down the curtain it was upon a victory that was even more important than the landing of Allied troops upon the Normandy beach. It took a remarkably short time for the American Army to capture Paris. Hitler said at that time Germany would win the war. He guessed wrong!

Now Hirohito talks moonshine to do in the Pacific. This Washington Correspondent is not a prophet or the son of a prophet. But write it down on a piece of paper; Japan will be completely licked before snow flies in New England.

There was an armistice that unfortunately destroyed plans for peace after World War I. The preour defeated enemies because we learned from experience what must be done. The United Nations at Dumbarton Oaks and San Francis-co have laid solid foundation for

permanent peace. Senator Willis, Republican of Indiana, made a statement a few days ago that seems to cover the situation when he said he had "no illusion" that the San Francisco Charter is a full preventive of war but it offers the only available medium" to reconcile differences in

a peaceful way.
The United State is going to stand by its bargains with Great Britain, Russia, France, China, and large and small nations. Per haps the rest of the World will do the same, as they are likely as tired of war as is the United States.

The bride is a graduate of Wood-

stock High School. The bridegroom the son of Mr and Mrs Albert Felt, is also a graduate of Woodstock

Mr Felt is engaged in farming. BETHEL LUMBER MARKET They will live at Bryant Pond.

On its radio series "Weapons for Victory"

Tune in Thursday July 19th, To Your CBS Station I'm doing my part to get the supplies to them." One reason the pulpwood shortage is still so acute is that the supply problem is far more difficult in the Pacific than in Europe. Supplies have to be double and even triple wrapped for the long haul. Pulpwood

is now one of our most serious war material shortages

and is on the War Production Urgency List. By cutting pulpwood, farmers are helping shorten the war; giving themselves another source of cash income; and helping themselves raise and market their other crops, since one of the largest uses of paper and paperboard is in packing agricultural products
